The colors are so dizzying for some reason.... I expected 3 Russians playing Dota 2 and yelling at you while they pick pudge, invoker and sniper. But I got a really boring story about a Russian mamuschka trying to kill Boris from Read Alert 3. You may like this...well..when you... i'm not really sure when you will like it.. Who the ♥♥♥♥ bowls while holding a tablet.

Please add locomotions for christ sake.. Zup is nice! You should buy it!. I was so happy when I read a review of the game some months ago and instantly bought it on my phone! After countless sessions – now it's time to play it on my PC with a gamepad! It's a must have experience for all arcade lovers!. Finished it. Liked it. Not good.

Boring story and gameplay. I have no pros and cons its plainly boring and I shouldn't have bought it.. Made me reinstall Freelancer. Press the up arrow key a bunch of time at title menu to add to the gameplay experience. **FIRST IMPRESSIONS REVIEW WITH LIMITED PLAY: NOW WITH EDIT DUE TO GETTING THE FEEL FOR THE GAME PLAY!!!**

(Everything below in my first impression is spot on with what i think about the rest of the game...

+the structure of the puzzles

+the use of environment in the puzzles and also as hazards

+the fact there are multiple ways to do things (avoid damage by not being stupid) :P

+the story is getting more intriguing as i go on,.. and i don't like most find a note games (really its this and the Solus Project only lol,.. and MAYBE SOMA,..

+The Art,.. it's doing it's own thing,.. and doing it well,.. VERY WELL

+the Atmosphere

+the fact it doesn't rely on jumpscare (although the chomp of a newly found bear trap is kinda scary lol)

i just can't find a fault with anything here,.. it is almost,.. i would say Genre Crushing.. IMHO

at least up there with the big guys like the Frictional games,.. (better IMHO)

still the only - (and i'm sad to say it is pretty game affecting ,.. since I WANT TO SEE MORE OF YOUR GAME AT ONCE! lol,...) is the lack of FOV toggle

overall 8.7-9/10

if the FOV gets a toggle 9.7/10 Easily

HOPE THESE 2 REVIEWS HELP!!! OH AND ,.. YOU CAN JUMP!!!! :D

(old review ->first impressions)

+EVERYTHING!!!

so gorgeous looking,. it feels great to move around,.. the physics are almost perfect. **HUGE THUMBS UP TO THE DEVS!!!** evrything about my first impressions,.. from the 2k Ultrawide 21:9 & **CROSSFIRE** support for my high end system to the shear movement of the character is fraking A+ (i only have limited play so input into the substance and impact of the story at this point can't be indulged)

- and the **ONLY** - ... No FOV toggle... with a 34" 21:9 monitor,.. (which you support ingame) there **NEEDS**,.. i repeat **NEEEEEEEEEEEEEEDS** to be a FOV toggle,.. it always feels like i'm crouched,.. lol

add this FOV toggle and you have a ♥♥♥♥ing GEM!

Koodos to the Devs! for there are so few of them!. This was a fun online multiplayer action game where you 2-D dogfight. Cute, hectic and generally fun to play with friends. Not sure if you can find a well-populated multiplayer game on the servers anymore, as I haven't played it for months.

Hard to say it's worth \$10. If it were on sale for \$3 I'd suggest getting a couple of copies to blow your friends up.. Really fun game! Community is small sadly. But i would recommened it to play solo or with friends. also when there's a sale.. An awesome game, even though there were some glitches at first (after the first game, it'd stop working) but now that it works, it's definitely a fun game and worth the money. It's everything the previous reviews mention. I'm not a huge chess fan since I tend to get bored, but Khet 2.0 is anything but boring.
