Please, remember, that fatal errors are not related to the waste overflow errors and they can not be reset by software.

If you experience communication errors or do not see your printer, please, try the following:

- Restart the printer and PC. Make sure that USB/Wi-Fi connection is of the good quality. Try to change USB cable and port if applicable.
- Disable 'status monitor' and 'my epson portal' via printing preferences or task manager if they are supported by your system. [\[Click here to find out how\]](#)
- Cancel all printer jobs and disable all applications and services that can communicate with the printer.
